Pass/fail written examination Data structures and algorithms

Friday 15 December 2023, 13:30–16:00

Notes

Answer directly on the question sheets.

Write your anonymous ID (not your name) on the question sheet.

You may answer in English or Swedish.

Excessively complicated answers might be rejected.

Write legibly — we need to be able to read your answer!

You can take this cover page home after the exam.

Questions and solutions will be published here afterwards:

<https://github.com/ChalmersGU-data-structure-courses/past-exams>

Grading: To pass the exam you need to pass at least 6 of the 8 questions.

Exam review: There will be a lecture Monday 18 December 13:15–15:00 in HB4 where we go through the answers and you can ask any questions you might have.

PS. The anonymous ID's are names of Swedish towns and villages.
