Pass/fail written examination TDA417: Data structures and algorithms

Thursday 12 October 2023, 8:30–12:00

Notes

Answer directly on the question sheets.

If you need additional space, you can use extra pages.
Refer to them from the question sheet so that we don't miss them.

Write your anonymous ID (not your name) on the question sheet,
and on all extra pages.

You may answer in English or Swedish.
Excessively complicated answers might be rejected.
Write legibly — we need to be able to read your answer!

You can take this cover page home after the exam.
Questions and solutions will be published here afterwards:
<https://github.com/ChalmersGU-data-structure-courses/past-exams>

Allowed aids: English dictionary.

Exam review: There will be a lecture where we go through all the answers.

When the exams have been graded, they are available for review in
the CSE student office on Floor 4 in the EDIT building at Johanneberg.

If you want to discuss the grading, please contact your course responsible and
book a meeting. In that case, you should leave the exam in the student office.

Grading: To pass the exam you need to pass at least 6 of the 8 questions.
